CERAMIC PROTECTION

After a Simulated 7-Year Exposure Test
Protected Panels Retained

97.8%

of Their Gloss

ServiceGuard Systems Ceramic Paint/Gel Coat protection is the first ever long-term protective coating to combine nano diamonds with ceramic technology. The nano diamonds give unparalleled shine and reflection, creating a diamond brilliance finish to your Watercraft. The ceramic forms a chemical bond to the surface for outstanding protection. The two technologies together result in a stunning appearance with high levels of gloss, slickness, and reflection.

Ask your dealer for details about the advantages of our Products and Programs created specifically for Autos, Motorhomes, Trailers, Campers, Motorcycles, Snowmobiles, ATV's and Marine.
