Powersport Theft Recovery Systems

ALWAYS PREPARED.

What good is a theft recovery system that isn't ready when a thief strikes? Exposure to the elements and dead batteries can render an otherwise adequate system worthless. That's why the new GPS Xtreme packs an impressive feature set that ensures it's always prepared:

Enhanced Water-Resistance

Designed to meet the stringent IP67 rating the GPS Xtreme can handle the worst mother nature can hand out, from rain to snow to standing water or mud the GPS Xtreme will be there.

Dust-Proof

The GPS Xtreme is protected by an impenetrable casing that prevents even the smallest dust particles

from entering its sensitive electronic components.

Advanced Power Management

GPS Xtreme owners never have to worry about encountering dead batteries caused by their theft recovery system. That's because the GPS Xtreme packs an impressive rechargeable internal backup battery and unique three-stage power management system designed to prevent undue strain on the vehicle's battery.

Omni-Directional Motion Sensor

The GPS Xtreme uses an intelligent omnidirectional motion sensor designed to detect the slightest movement of the vehicle when not in use. The sensor is an integral part of the power management system, restoring the Xtreme to full-power mode when it senses suspicious movement.

Xtreme Protection

A GPS Xtreme protected powersport vehicle is always prepared for the worst. And if your vehicle is ever stolen, you can be assured the vehicle will be located and returned faster than ever, thanks to Guidepoint Systems Real-Time GPS Tracking.

Real-Time GPS Tracking

If a vehicle goes missing, one call to 877-GPS-FIND is all it takes. The Guidepoint Response Center will quickly locate the vehicle anywhere throughout North America. Then, they'll work with law enforcement to ensure the vehicle's expedient return, often in less than two hours.

GPS-SML

GPS Vehicle Locator

Real-Time Internet tracking by our 24/7/365 Response Center for faster recovery.

Nationwide Coverage

GPS satellite technology and our nationwide wireless network provide complete coverage throughout the U.S., Canada and Mexico.

Police Notification

Guidepoint professionals work directly with law enforcement to track and recover your stolen vehicle.

E-Call⁽¹⁾

Emergency service is only a call away. The Guidepoint Response Center will dispatch the appropriate emergency service for you.

Theft Guarantee⁽²⁾

If we can't locate your stolen vehicle within 24 hours you are eligible to a purchase price refund up to \$1000.

Transferable

Your GPS Xtreme can be transferred to your next vehicle.

(1) For dispatch emergency situations only, non-emergency alerts subject to service fee.

(2) One year term: renewable.
