Safe-Guard Theft Protection keeps your vehicle from being next!

Your vehicle is a major investment, so the last thing you want to think about is having your vehicle stolen. However, today's car owner simply cannot afford to ignore the possibility.

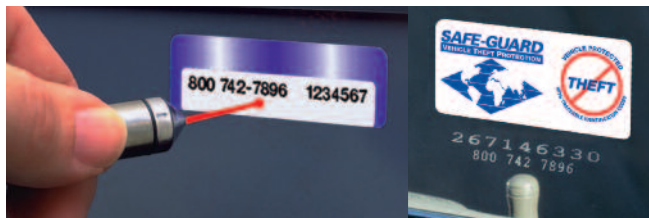

The Facts.

- Approximately every 40 seconds, a vehicle is stolen in the United States.*
- A professional car thief can steal a vehicle in less than one minute.
- Vehicles are stolen from grocery stores, shopping malls and parking garages every day.
- Vehicle recovery rates have been consistently declining.
- Your insurance company generally covers only the vehicle value at the time of the loss, leaving you responsible for deductibles plus the replacement vehicle's taxes, fees and down payment.

*According to FBI Uniform Crime Reporting 2011/2012.

The Protection.

- Traceable security codes are permanently installed on various parts of your vehicle and recorded in a database accessible by law enforcement agencies.
- These codes along with distinctive anti-theft warning decals make vehicles less desirable to experienced car thieves.
- A financial warranty benefit of up to \$5,000 is provided to help you defray the costs of having a vehicle stolen and declared a total loss.

Safe-Guard's Theft Protection systems permanently mark the vehicle's body parts or etch the glass with indelible identification numbers, which are registered in a database that can be scanned by law enforcement officials to trace the vehicle's ownership.

The Numbers.

Safe-Guard Theft Protection provides you with vehicle and financial security. Unfortunately, your insurance may not cover all of the costs associated with a loss due to the theft, leaving you responsible for deductibles plus the replacement vehicle's taxes, fees and down payment.

The following are the typical out-of-pocket expenses not covered by your insurance company:

1. Replacement Vehicle Costs (down payment, sales tax and miscellaneous fees)		\$1,000 – \$2,000*
2. Deductibles	+	\$250 – \$1,000*
3. Payoff Deficiencies	+	\$1,000 – \$2,000*
Total out-of-pocket costs		\$2,250 – \$5,000*

**Approximate costs, your actual costs may vary.*
